

TITLE PROPOSAL #4

PROPOSED SAD PROJECT TITLE: “Web-based Projects Archiving System
of the College of Computer Studies, Columban College, Olongapo City”

PROPONENTS:

Jessa Katrina Cawagas
Rhonalyn Dadios
Chelsea Anne Tocmo
Gene Christine Marjes

PROJECT OBJECTIVES:

1. To allow you to store, browse and secure SAD/Thesis project documentations.
2. To require the admin to upload, update and delete of the SAD/Thesis project documentations.
3. To permit faculty to check/view the projects throughout the process of the SAD/Thesis project making.
4. To limit the students for viewing the SAD/Thesis project documentations.
5. To allow the students to upload their SAD/Thesis project documentation to be checked by Faculty.

PROJECT SIGNIFICANCE / EXPECTED BENEFITS;

1. Admin - the admin will benefit from this study because admin will have the overall access and monitoring of all the SAD/Thesis project documentations
2. Faculty- the faculty will benefit from this study because it will help them check and view the revision and version history of the SAD/Thesis Project Documentation.
3. Students - the student will benefit from this study because they can upload their project for the faculty to be check and noted them for revision and have a version history.
4. The system can lessen plagiarism because it will have watermark and version history. It also assures security and privacy of the project documentations because of the limited preview for the students.
5. The system can maintain data integrity with categories and subcategories to become easier to organize, search and retrieve data.

PROJECT RESPONDENT(S):

Admin, Faculty Staff and Students

PROJECT RECOMMENDATION:

HTML, PHP, XAMPP and CSS

LOCATION:

Columban College CCS War Room

RECOMMENDING APPROVAL:

Ms. Gemma Tapado
Adviser, Systems Analysis and Design

APPROVED BY:

Engr. Noel H. Yap
Dean, College of Computer Studies
